

Stainless steel pan included!

Jewelry Scale

HT-500GD

9 units of weighing & 3 color bars

Nine units of weighing

You can select the unit of weighing that best suits your purpose from *g, oz, lb-oz, dwt, ct, tael, tola, ozt, and N.*

Easy classification & identification

The 3 color bars (red, green, and orange) let you sort the scales by color depending on the purpose, owner, or point of use. The carrying case has also a nameplate holder for tagging the scale easily.

Battery operated & portable

The scale is battery operated. You can perform weighing without taking the scale out of its carrying case. There are penholders in two corners of the carrying case.

Theft prevention

You can secure your scale using the slot in the rear, which accommodates commercially available anti-theft locks.

Long-term operation & durability

The battery life is approx. 450 hours (with alkaline batteries), and the auto power off function saves unnecessary use of power. The stainless steel pan protects the weighing surface from scratches and wear.
