

RA3100 Viewer Ver.2.4.0 (2026/3)

[Additional Functions]

1. Download

Data for the recordings, images, settings, CSV files, and PDF files can now be downloaded from the RA3100 unit.

2. "New" and "Open" in the menu

- "New" enables a new RA3100 recording folder to be created.
- "Open" enables an existing RA3100 recording folder to be opened.

[Improved Functions]

1. The data list on the file management screen can now be reloaded.

2. The location of the saved data can now be opened on the file management screen.

[Specifications Changed]

1. The "Select record folder" menu item has been changed to "Open".

RA3100 Viewer Ver.1.3.1 (2022/4)

[Bugs Fixed]

1. Bug where the selected recording device changes unintentionally each time the unit starts up.
